

Re – Secondary Transfer

You can use a tool on the Ofsted website which is quite accurate in measuring distance; it can help you to find out the distance from your postcode to all secondary schools.

1. Go to www.ofsted.gov.uk
2. Click on '**Find an inspection report**'
3. At bottom of page where it says '**Search providers by:**', select **>Distance from your home**, Enter your postcode, Choose the required distance (5, 10 or 20 miles), Remit is 'schools' and Provider is 'secondary'
4. Then press '**search**' button.

A list of secondary schools will then be generated in order of distance from your home postcode. This can be quite useful in considering your six preferences and ensuring that your preferences are realistic in terms of distance - particularly for the over-subscribed schools!
